**DETAILED ACTION**

Claims 1-58 are pending. Preliminary amendments are entered.

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I claim(s) \*\*1-21, 51-56 drawn to use of compositions as in claim 1

Group II claim(s) 22, drawn to a container.

Group III claim(s) 23, drawn to a container.

Group IV, claim 24 and 25, drawn to method of relieving symptoms caused by estrogen deficiency.

Group V, claims 26 and 27 drawn to a method of screening.

Group VI, claims 28-49, 57 and 58 drawn to a method of screening.

The inventions listed as Groups I to VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because

Art Unit: 1616

they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a). The claims are deemed to correspond to the species.

The following claim(s) are generic: 1-58.

The species do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features.
